Newsletter

AUGUST 2013

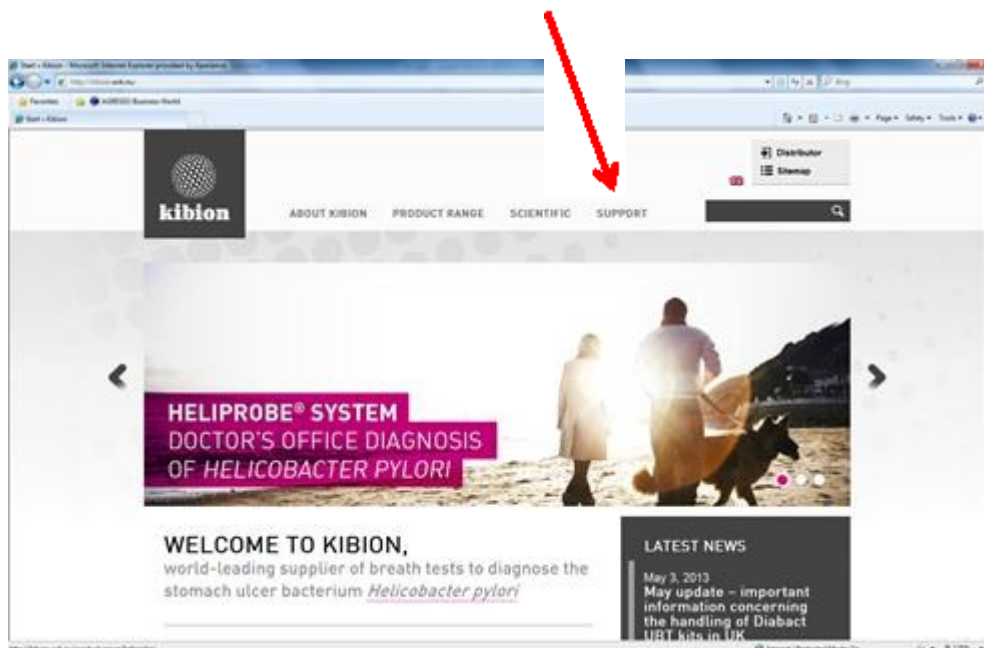

Dear Distributor,

In this first Newsletter of the autumn we are happy to announce that from today, August 16th, we have launched a more attractive and easier to work with web.

There will be a login for all Distributors, login details will be sent in a separate mail. On this special page you will find leaflets, presentations, instructions, certificates, photos to use etc. This will continuously be updated.

You will also find a support link, where you can directly send questions to us by filling in the form or download the form and send to us in a separate mail.

Please send us your comments. We want the new web to be a useful tool for you and a support in your daily work with your customers.

Best regards
KIBION
